Exclusive 14 day charter

Just for Y-Kiki Travel, Nai'a is doing a very special 14 day charter so that you can enjoy the very best of Fiji. We will take our time at some of the world's top dive sites, and explore new areas seldom dived.

Located in the middle of the Pacific Ocean, Fiji is a tropical paradise known for its exceptional scuba diving. It anchors a corner of the Coral Triangle, serving as a major reef structure for marine species migrating from Indonesia and the east. With over 300 islands featuring diverse reefs, perfect water temperatures, and nutrient-rich environments, Fiji supports rapid coral growth and abundant fish populations. The central region, protected by barrier reefs, boasts globally significant habitats and high fish abundance, showing remarkable resilience to coral bleaching. Easily accessible from St. Louis, Fiji offers divers unparalleled experiences with its soft corals, diverse reef fish, and unique marine life, guided by the expert divemasters of Nai'a. And Nai'a is the luxury vessel with a superb reputation for fun, safety, fabulous food, and comfort.

Fiji can be quite challenging. Most of the areas we dive in our itinerary have quite a lot of current. The rich nutrients brought by these currents are exactly what makes these areas so pristine and beautiful. Not all our dives are done in high current, but there is the potential for high currents throughout the trip, especially around full moon and new moon. Please make sure you are comfortable with that kind of diving and with making safety stops in the blue.

*Nitrox for certified EANx Divers

Payment Schedule:

\$1000 non-refundable deposit

\$2000 due June 1, 2025
